

ASR ACTIVE SHOOTER RACK

The PROJECT7 **ACTIVE SHOOTER RACK** (ASR) is a minimal coverage platform designed to provide rapid donning Hard Armor protection for a variety of professional users. Built to carry 10"x12" hard armor plates, the ASR utilizes a one size fits all design and wide range of adjustability to ensure proper fit for a wide variety of body types. First" design that utilizes 10"x12" or SAPI sized rifle plates for primary torso protection and incorporates soft armor for side and extremities protection.

KEY FEATURES

Key features for **ASR** include:

- Adjustable Shoulder Straps allowing for a correct fit
- Integrated anti-slip shoulder surfaces, which allows for better weapon retention
- Kangaroo Style Front Pocket System allowing for gear to be carried in an internal pouch with divider inserts, while leaving MOLLE surfaces available for pouches
- Bottom loading plate pockets designed to prevent plate bouncing
- Front and rear webless MOLLE/PALS surfaces compatible with a wide variety of pouches
- Drag Strap to facilitate quick rescues
- Integrates with the PROJECT7 ASR-BAG for storage and carrying
- Lightweight and Compact design
